## **Tata Communications' Radical Reassessment of "the Cloud Behind the Cloud" Launches NetEvents 2011 EMEA Summit**

FRASCATI, Italy--(BUSINESS WIRE)--With responsibility for Tata's massive VPN portfolio – embracing over 3,000 Ethernet access nodes in 52 countries, direct MPLS services to 100 countries and managed extended access and network integration offerings in more than 190 countries – James Walker explained his passionate commitment to Cloud service delivery in today's opening keynote. With a wealth of real world case studies to support his vision he focused on the need to evolve the underlying network
