Future Directions in Networking

Moderator:
David Newman, Network Test
Past is prologue...
Other things Ethernet isn’t

• “a system for local communication among computing stations”
• A research plaything
• Unmanaged
• Nondeterministic
• Expensive
And speaking of finances...

• “Most engineers don't understand that selling matters. They think that on the food chain of life, salespeople are below green slime. They don't understand that nothing happens until something gets sold”
  — Bob Metcalfe
Let’s meet our panel

• Faraj Aalaei, President & CEO, Aquantia
• Stu Bailey, CTO, Infoblox
• Bruce Davie, CTO, networking, VMware
• Glenn Edens, PARC Program Manager, Content Centric Networking
• Shezhad Merchant, Chief Strategy Officer, Gigamon
Thanks!
