Tier 1 Service Provider deploys OpenSwitch + Intent-based Automation  
31/05/18

## **Tier 1 Service Provider deploys OpenSwitch + Intent-based Automation**

Thursday, May 31, 2018 [Apstra](#) [No comments](#)

Mansour Karam, CEO of Apstra, discusses the recent deployment by a Tier One Service Provider in the U.S. of OpenSwitch (OPX) on Dell Z9100-ON switches. The network is automated by Apstra's AOS, which provides an intent-based distributed operating system and a data center application suite for service agility, increased uptime and dramatically improved infrastructure TCO.

Filmed at NetEvents in San Jose, California.
