## NetEvents: 40 years of Ethernet

Live broadcast from the Ethernet Innovation Summit 2013

40 Years of Ethernet, funkschau congratulates on the anniversary. Ethernet has influenced the local networks and already ten years ago with carrier Ethernet established his dominance in the WAN - to the global world wide Ethernet. funkschau broadcasts live from the NetEvents Summit "Ethernet Innovation Summit 2013". The who is who of the industry is spot - keynotes, lectures, discussions.

SMART PHONES, TABLETS, VIDEO, MULTIMEDIA-  
TOOLS FÜR DIE ZUSAMMENARBEIT..  
kann Ihr Netz all diese Anforderungen erfüllen?  
Mehr Infos >

Alcatel-Lucent   
Enterprise

<a

The banner features a background of glowing blue and purple lines representing data or network connections. It contains text in German asking if a network can handle smart phones, tablets, video, and multimedia tools for collaboration. It includes a call to action 'Mehr Infos >' and the Alcatel-Lucent Enterprise logo.

Nan Chen, founder and President of the MEF

Today and tomorrow inventor of Ethernet is on this map from the history computer Museum in mountain view include the keynote address by Bob Metcalfe, and more keynotes and discussions in English live broadcast from 17:30 our time.

As MEF President Nan Chen once predicted: "in future, there will be a single language linking business worldwide." It won't be English. It won't be Mandarin. It will be Ethernet."

How MEF once predicted President Nan Chen: "in the future there will be a language, which combines the business all over the world. Not English. Not Mandarin. But Ethernet."
