
SDN: Choice of Transition path with Open Networking

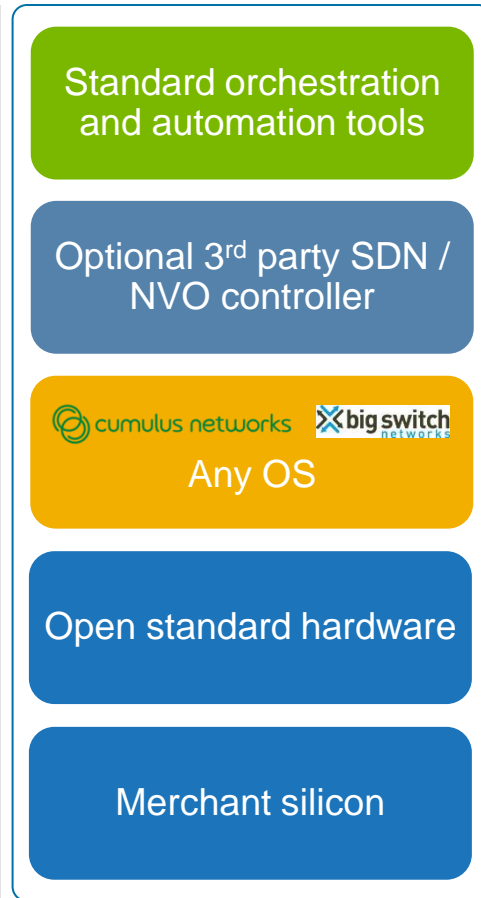

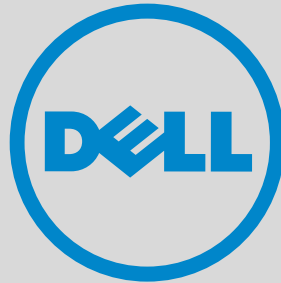

Arpit Joshipura

Vice President, Product Management & Marketing
Dell Networking (Former CMO, Force10 Networks)

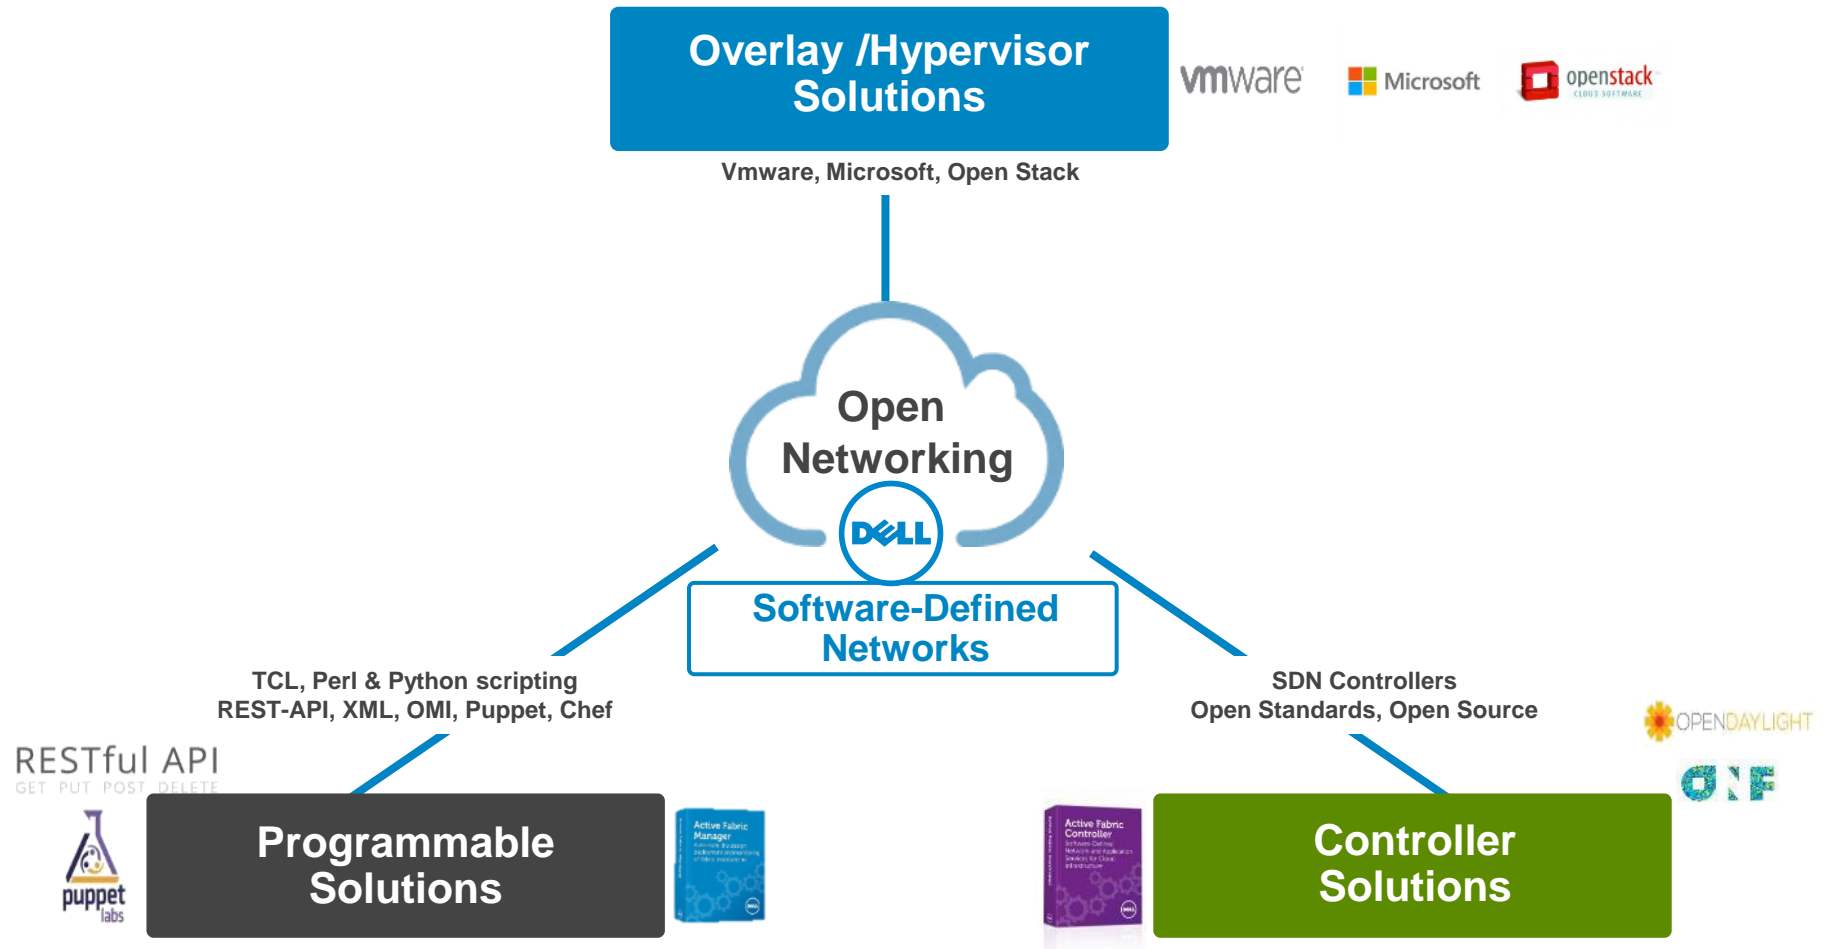

The Future of Networking

Traditional Networking

Choice of Software Defined Networking approach

Open Standards + Open Protocols + Open Source = **Open IT with Choices**

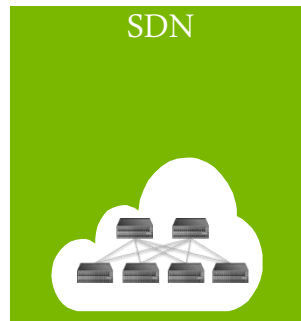

2014 SDN challenge: Organization & Skills

Workloads

Cloud & Server Admins

Cloud Administrators to virtualize networks and simplify service creation and delivery

Network Administrators to automate network deployments and simplify management

CLI/admin versus Programming

Network Admins

Fabrics
