

Security Innovation in the FinTech Sector

Advice from the industry's top cybersecurity experts

Eric Parizo, Senior Analyst, Enterprise Security | GlobalData

NetEvents Global Press & Analyst Summit | Sept. 28, 2017

Discussion Topics

- Equifax: How bad was it? What really happened? What should I do?
- At retail stores, sometimes I swipe my card, sometimes I insert it. Does it make a difference?
- Many retailers use analytics and gather data on consumers' other purchases, locations visited, income, etc. Is my privacy under assault?
- What technologies and techniques are emerging to better secure payments and customer data, as well as protect customer privacy?
