

Track and Attack the Hackers: Don't Be Passive, Fight Back!

NetEvents, London, June 2017

Panel

- Scott Register, VP, Product Management, Ixia
- Paul Ferron, Director Solutions Sales, CA Technologies
- Laurance Dine, Managing Principal, Verizon IR Team
- Guy Franco, CTO & CO-Founder, Javelin Networks
- Josh Applebaum, VP of Product Strategy, Ziften

The NSS Labs Mission

To arm the world with the fact-based, objective information required to *get secure and stay secure.*

Reactive Security

- Simple
- Cost effective
- Easy to staff

Proactive

- Cannot protect everything
- Must know
 - Apps
 - Network space
 - Users
 - Use cases
- Threat Intelligence
 - Know threats
 - Popular CVE's, Active
 - Broadcast vs. Targeted
 - Motives

How to Evolve your Posture

- Reactive vs. Proactive?
- Process & workflow
- Tool gaps?
- Get outside perspective

Panel

- New Perspective
- Benefits?
- How to Resource?
- What steps to take next?
- How to best leverage industry?
